# What to know about Beam's dental network

Ready to visit the dentist but have questions about our network of dental providers? We're here to help!

## Looking for an in-network dental provider?

We have over 500,000 access points<sup>††</sup> in our network. Find one quickly with these steps:

1. Visit [dentists.beambenefits.com](https://dentists.beambenefits.com).
2. Enter your zipcode and select the distance radius you desire. **Pro tip:** for a more advanced search, you can enter a specialty, your provider's name or a practice name.
3. Review the search results to select a provider.
4. Call and schedule your appointment.

## What if your dentist has never heard of Beam?

Although Beam has grown quickly and has a large, nationwide network, this may happen from time to time. In this case, you can:

**Verify coverage by sending your digital insurance card to the provider via the Beam app.**

1. Click the "Insurance" tab and then click on your insurance card.
2. Click on your dental insurance card
3. Select the share icon in the top right
4. Send your card via text, email, or another preferred communication method.

## Have the provider reach out to us
